Middlemarch Mates

Middlemarch is a real town in the South Island of New Zealand. The nearest city is Dunedin. While I try to keep the town as real as possible in my books, I am guilty of adding features and amenities to suit my purposes. I've also renamed a few of the existing businesses.

Apart from being a typical country town, Middlemarch holds an annual Single's Ball, which is very popular, and it is the ending point of the Otago Rail Trail. This trail goes all the way from Clyde to Middlemarch, a distance of 150km. The entire trail takes 3 - 5 days to cycle.
